

# Blyth Dale Road House

Toronto, ON

Sunnybrook

- 1 BEDROOM
- 2 DINING
- 3 LIVING
- 4 KITCHEN
- 5 BATHROOM
- 6 MUDROOM
- 7 TERRACE
- 8 GARDEN
- 9 FAMILY

Lapointe Architects collaborated with celebrated Architect Claudio Gantous of Mexico to create a contemporary family home in a suburban setting that is energy efficient and suited to local codes and climate. Natural materials including rough and honed stone, concrete, cedar, copper and glass, and an interior garden conceal the latest energy efficient technologies. These include a ground source heat pump which provides heat to radiant in-floor heating or rejects heat to the warm the outdoor pool, and roof-mounted photovoltaic solar collectors.

**AREA** 4,000 sf  
**BUDGET** Withheld  
**STATUS** Completed 2008
